

STUDENT REFLECTION

This will help you with in-depth understanding.

Instructions:

1. Include a "Relevant Title."
2. Create an individual drawing to represent this activity.
3. Write in *complete sentences* what you learned.
4. Design a question using the math standard that could be on a standardized test.

Use the rubric below to gauge your work, and grade yourself by circling how you did. Turn in this form with your *Reflection Artifact*.

Example:

	4	3	2	1	0
Use of Paper	I used the entire paper!	I used most of the paper.	I used half of the paper.	I used less than half of the paper.	My dog ate my artifact.
Title	I included a unique and extremely creative title that is relevant to the lesson!	I included a creative title that was relevant to the lesson.	I included a title that was relevant to the lesson.	I included a title but, was not relevant to the lesson.	I was suppose to include a title?
Student Drawings	I may not be an artist, but my friends know what I drew!	I may not be an artist, but my friends think they know what I drew.	I may not be an artist, but my friends aren't sure what I drew.	My friends are not impressed at my effort.	What drawings?
Question & Answer	I am a professional and understand all required math in this lesson.	I am a professional, but I need to work on my grammar, spelling, and sentence structure.	Not sure about the math, but I wrote in complete sentences.	Not sure about the math and need to work on my language arts skills.	Oops, I forgot to include a question...
Math	I showed complete understanding of the math by explaining AND showing an example!	I showed partial understanding of the math by either explaining it or showing an example.	I showed limited understanding of the math. My explanation or examples were unclear.	I did not understand the math but I attempted to demonstrate what I could.	I thought this was English class!
Color	I included full color on my artifact!	I included color on most of my artifact.	I included color on about half of my artifact.	I included a little color.	I lost most of my school supplies, so I did not include color on my artifact.
Clarity, Creativity, Effort	My artifact is professional! It is clear, creative and shows extreme effort!	My artifact is somewhat clear, creative, and shows partial effort.	My artifact shows limited creativity and limited effort.	My artifact shows no creativity and very little effort.	zzzzzz. DOH!
Standardized Test Question	I completely understand the math and created an awesome additional question!	I understand the math, but not sure how to write a question in another form.	I struggled with this question, but here is what I come up with.	I do not understand, but I tried to come up with a question.	I opted out of the standardized test... Why do I need to include another question?
